

**ART. 436RB**

**Blades:** Cobalt Vanadium steel N690Co  
HRC 58-60 length mm 85 Teflon  
coated.

**Handle:** CNC machined anodized aircraft  
aluminium with 3M anti slip tape  
insert length mm 110 with blade  
safely locking system and  
integrated aluminium carabiner  
hard anodized.

Extra locking system positioned in the back side of the handle stop the blade and doesn't permit accidentally opening. The system allows to carry the knife in reverse position hanging it with the carabiner for fast access in extreme conditions.
